EDUCATION

American International University-Bangladesh (AIUB)

Dhaka, Bangladesh

Bachelor of Science in Computer Science and Engineering

Expected: 2026

- Major: Information Systems (Data Science, Machine Learning, Human-Computer Interaction)

EXPERIENCE

AlgoTech IT

Dhaka, Bangladesh

Co-Founder, TechLead & Full-Stack Developer

2025 – Present

- Co-founded a software agency delivering full-stack web applications.
- Led end-to-end development using Next.js, NestJS, and Supabase, from client requirements to deployment.
- Managed client communication, project scoping, and payment integration (SSLCommerz) for delivered projects.

PROJECTS

Coffee Shop Management System | *NestJS, Next.js, TypeScript, Supabase*

[Live](#)

- Built and deployed a full-stack web application with a NestJS REST API backend and Next.js frontend, both live on Railway.
- Implemented JWT-based authentication with role-based access control (admin/customer), menu management, and order processing.
- Documented all API endpoints with Swagger UI and configured a PostgreSQL database with environment-based deployment.

PixoGram | *Supabase, Flutter, Dart*

- Built a photo-only social media application with authentication, follow/unfollow system, and real-time post feeds.
- Implemented image upload, row-level security policies, and real-time data sync for a multi-user experience.

VITON – Virtual Try-On | *Next.js, TypeScript, PostgreSQL*

[GitHub](#)

- Built a premium fashion e-commerce web application with separate admin panels for Men and Women product sections.
- Implemented banner management, category management, image upload functionality, and user authentication.

WordPress URL Finder | *Next.js, TypeScript, PostgreSQL*

[GitHub](#)

- Built a Next.js 16 frontend with a TypeScript worker streaming Common Crawl WARC data to discover WordPress sites.
- Designed a bounded queue with backpressure and used PostgreSQL FOR UPDATE SKIP LOCKED for concurrency-safe domain claiming.

TECHNICAL SKILLS

Languages:	Python, JavaScript, C++, PHP, HTML, CSS
Frameworks & Libraries:	React, Next.js, NestJS, Tailwind CSS
Databases:	Supabase, MySQL, PostgreSQL, Firebase
Backend:	NestJS, Node.JS, REST API
Tools & Platforms:	Git, GitHub, Linux, VS Code, Antigravity, n8n, Arduino IDE, Postman, Selenium testing
